

LED interior lamps
12/24 volt
0-668-05

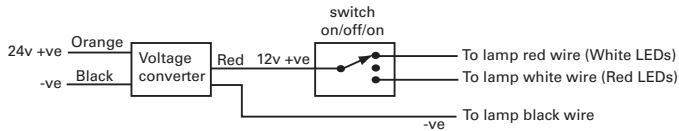

Wiring Instructions

12 volt applications:

- Red wire - 12v +ve supply for white LEDs
- White wire - 12v +ve supply in for red LEDs
- Black wire - -ve supply/common

24 volt applications:

Connect the voltage converter (included) between the 24v supply and the switch (not included). See diagram below.
